Dear Mr. Thomas,

Creative Spirits of the State of New Jersey would like to formally thank you for accepting our invitation to be the guest speaker at our upcoming production, "Which Life Do You Choose?" presented by the Central Ward Boys & Girls Club at 8:00 p.m., 1 Avon Avenue, Newark.

Your outstanding accomplishments in the performing arts arena make you more than competent to explain the arts as an integral need in any community of people. As common and important as this need may be, we still have to develop more significant cultural programs.

With your expertise, you could do a world of good to touch on the importance of cultural programs to the Central Boys & Girls Club.

Without art, civilization would not exist as we know it today. Parents, teachers, students, the young and mature alike should be reminded of how vital is the essence of the arts.

Sincerely yours,

Jihadah S.A. Sharif
